Professional Summary

Dynamic and results-driven Senior Full Stack Developer with extensive experience architecting, developing, and deploying robust web applications. Highly proficient in modern frontend ecosystems including React, Next.js (App Router), TypeScript, Tailwind CSS, and shadcn/ui, coupled with strong backend capabilities in Python and Django. Proven track record of managing end-to-end technical infrastructure, integrating enterprise APIs, and driving data engineering projects. Highly adaptive professional with exceptional technical communication skills, dedicated to operational excellence and continuous technological innovation.

Technical Stack & Competencies

Frontend Engineering	React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui, HTML5, CSS3
Backend & Systems	Python, Django, C Programming (Mid-level), RESTful APIs, Service Integrations
Tools & Infrastructure	Git, GitHub, Data Simulation, Database Management, IT Infrastructure Support
Professional Skills	Project Management, Data Analysis, Corporate Communications, Cross-functional Collaboration

Professional Experience

Junior IT Specialist & Developer

Jan 2026 – Present

Lancelot Registrars and Investor Relations — Lagos, Nigeria

- Architect and maintain enterprise IT infrastructure and database systems, ensuring maximum system uptime, data integrity, and seamless workflow operations.
- Develop and maintain internal digital applications and system integrations, managing secure data workflows for Corporate Clients (Issuers) and executive council stakeholders.
- Troubleshoot complex network, software, and hardware bottlenecks while optimizing internal digital registry frameworks.

IT Assistant (NYSC)

Jan 2025 – Jan 2026

Lancelot Registrars and Investor Relations — Lagos, Nigeria

- Collaborated with cross-functional teams to streamline digital data collection, manage local network security protocols, and maintain corporate software solutions.

Senior Full Stack Developer

Jan 2020 – Present

Software Engineering — [Freelance / Remote](#)

- Design, engineer, and deploy performant, accessible, and user-centric web applications utilizing Next.js, React, and TypeScript.
- Implement highly modular, reusable UI components using Tailwind CSS and shadcn/ui architectures, significantly improving loading speeds and frontend maintainability.
- Develop complex, production-grade applications from scratch, handling full build, deployment, and optimization cycles.
- Manage data simulation frameworks to generate and format extensive datasets using custom scripts for robust cross-platform integrations.

Senior Front End Developer

May 2025 – October 2025

Software Engineering [Exxforce-Payroll for Excellium LTD.](#) — [Contract / Remote](#)

- Design, engineer, and deploy performant, accessible, and user-centric web applications utilizing Next.js, React, TypeScript, ChartJs, .
- Implement highly modular, reusable UI components using Tailwind CSS and shadcn/ui architectures, significantly improving loading speeds and frontend maintainability.
- Develop complex, production-grade applications (such as ExxForce-Payroll) from scratch, handling full build, deployment, and optimization cycles.
- Manage data simulation to generate and format extensive datasets using custom scripts for robust cross-platform integrations on Django, My Sql.

Data Analysis Intern

May 2021 – Aug 2021

[Festac Local Government Office](#) — [Lagos, Nigeria](#)

- Cleaned, structured, and analyzed municipal datasets to deliver actionable insights for local administrative decisions and reporting.
- Optimized data-retrieval pipelines and statistical registers, reducing report generation turnaround time.

Education

Bachelors in Computer Science — [University of Benin](#)

O'level Certificate

Certifications & Trainings

-
- **HTML, CSS & JavaScript Professional Certification** — GoCode
 - **Certified HTML5 and CSS Fundamentals** — SoloLearn
 - **Soft-Skills Professional Certification** — Jobberman
